EDUCATION

University of Louisiana at Monroe

Monroe, LA

B.S in Mathematics, Minor in Computer Science, Honors Program

May 2028 (Expected)

- **Cumulative GPA:** 3.44
- **Honors:** Dean's List (Fall 2024, Spring 2025)
- **Relevant Coursework:** Mathematical Statistics, Applied Linear Algebra, Data Structures, Algorithms, Managerial Accounting, Calculus II

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, TypeScript

Frameworks: React, Node.js, Express.js, Next.js, Flask, FastAPI, PyTorch, NumPy, Pandas

Software and Tools: Git/GitHub, Microsoft Excel, VS Code, PyCharm

Core Competencies: Statistical Analysis, Algorithm Design, Complex Problem Solving, Analytical Reasoning

PROJECTS

Auto-Scrolling Chrome Extension | *JavaScript, HTML, Web APIs*

Mar. 2025

- Developed a custom Chrome extension to automate browser interactions
- Utilized JavaScript to interact with the YouTube DOM
- Implemented logic to detect video completion and automatically trigger scroll events

Interactive Flappy Bird and Pong Clones | *Python, Pygame*

Dec. 2024

- Programmed fully functional clones of classic arcade games using Pygame
- Applied OOPs principles to manage game states, user inputs, and rendering loops
- Implemented underlying game mechanics, including collision detection algorithms
- Implemented 2D coordinate mapping, and basic physics simulations for gravity and velocity

Command-Line Bill Management System | *C, File I/O, Data Structures*

- Developed a CLI-based billing application in C to manage restaurant orders, calculate totals including tax and discounts, and generate formatted receipts
- Implemented persistent data storage utilizing C standard File I/O to save, retrieve, and search billing records
- Structured complex order data using custom C structs to efficiently map item details, quantities, and pricing into memory

Personal Portfolio Website | *React.js, JavaScript, CSS*

Jan. 2025

- Built a responsive single-page website using React.js to host a professional portfolio
- Managed UI logic, ensuring a smooth user experience across different device sizes
- Hosted the project repository on GitHub and deployed using Netlify
